Washington, D.C. 20554

Dear Secretary:

On behalf of my client, Mrs. Betty Albright, enclosed is the original and three copies of a rulemaking petition seeking to assign FM channel 248 for commercial use at Oak Grove, Kentucky. The technical statement demonstrating compliance with applicable rules is also attached.

There is presently no broadcast service licensed to Oak Grove. It is the intention of my client to immediately file application for a construction permit along with the required filing fees should the Commission assign this channel to the community.

Please address all correspondence in this matter to this office.

Sincerely,

Donald Gregory

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

TECHNICAL STATEMENT

This statement and the associated figures are submitted to support the request of Betty M. Albright to modify Part 73.202 of the Commission's Rules, the Table of FM assignments.

More specifically, it is requested that the Commission add channel 248A for commercial use to the community of Oak Grove, Kentucky. This report shows that the channel is ready and available for assignment to the proposed community.

Attached Figure 1 is a map showing the area in which a new channel 248 transmitter could be located while meeting the mileage separation requirements of the Commission's Rules. The permissible area was determined by considering the required separations (Part 73.203) to pertinent co-channel and adjacent channel stations and assignments. The results of the study are shown in tabular form on attached Figure 2.

Based on the studies presented it does appear the proposed assignment could be made at Oak Grove, 1) in full compliance with all separation requirements by imposing a transmitter site restriction of 7 kilometers northwest of the Oak Grove post office, 2) without requiring other changes or substitutions in the Table of Assignments, 3) without causing new preclusion on any adjacent or IF-separated channel, and 4) providing a 70 dBu across the entire city of Oak Grove.

CERTIFICATIONS

I, Gary McNeal Brown, do hereby certify under penalty of perjury;

That my qualifications in telecommunications matters are of record before the Commission;

That I have been retained by Betty Albright for the purpose of preparing the attached technical report;

That all information presented therein is true and correct of my own knowledge and belief.

/s/ 
Gary McNeal Brown

STATEMENT OF BETTY M. ALBRIGHT

I, Betty Albright, do certify under penalty of perjury under the laws of the United States;

That I have retained legal and technical counsel seeking to assign FM Broadcast channel 97.5 megahertz to Oak Grove, Kentucky and that I will apply for a construction permit to install and operate said station if assigned by the Commission. I am familiar with applicable Rules and required filing fees and meet all qualifications required by the filing of this petition.

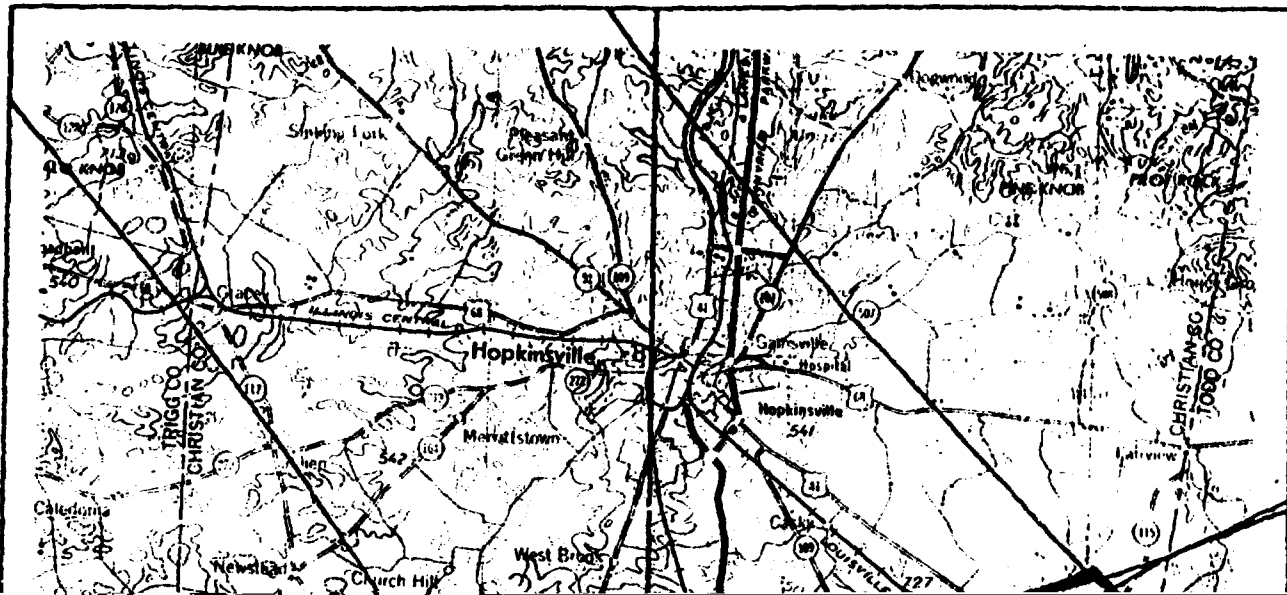

/s/ Betty M. Albright
